Dear Mr. McLeod,

Sorry I have to be so brief but I do answer your questions as best I can.

I've not read the Furiati book and do not intend to. I work as you may remember with the official recofds and lack the time that requires.

I've heard reports that Conein was in the Altgens picture as well as others who were not. Last place he'd have been if involved.

I know nothing about Belin and his background. Or of the duPonts. But the DuPont Belins were French.

I do not believe Tippit could have been anywhere but home at the time of the shooting, as his wife at least said. His police car would have beeb pretty conspicuous had it been behind that fence.

Sincerely,

Harold Weisberg
